

ALARM SIREN

Kat.br. 5E 01137
HŽ šifra: 2350911182

EK-AS24-3T

The electronic siren is used to alarm with sound, i.e. to signal different states in different technological systems and processes. It turns electronic voltage signal into sound signals of specific frequency and loudness.

Elektronska sirena koristi se za zvučno alarmiranje, odnodsno signaliziranje različitih stanja u raznim tehnološkim sustavima i procesima. Elektronska sirena EK-AS24-3T pretvara električki naponski signal u zvučni određene frekvencije i nivoa glasnoće

Input voltage / Ulazni napon	24 V, DC ± 20 %
Maximum input power / Maksimalna ulazna snaga	20 VA
Loudness level of sound signal / Nivo glasnoće zvučnog signala	80 dB - 98dB, adjustable
Sound signal frequency / Frekvencija zvučnog signala	input / ulaz 1 - 1200 Hz input / ulaz 2 - 600 Hz input / ulaz 3 - 400 Hz
Working ambient temperature / Temperaturno područje rada	-20°C to + 50°C
Insulation resistance any point to case / Izolacioni otpor prema masi	? 1 M
Mechanical protection degree / Stupanj mehaničke zaštite	IP 41
Dimensions / Dimenzije	210 x 100 x 90 mm
Weight / Težina	1,5 kg

EK AS24-3T
